

Educational Assistance for Veterans' Children and Spouses State Mandated Report

Due September 30, 2026

Background

This report is submitted on behalf of the Board of Regents of the University of Minnesota as required as part of the Educational Assistance for Veterans' Children and Spouses within [2026 Minn. Laws Reg. Sess. Chap 49 Sec 5 Subd. 7\(a\)](#). This report was developed by the Office of Student Finance within the Office of the Executive Vice President and Provost at the University of Minnesota. Per the requirements set forth in [Minnesota Statute 3.197](#), the cost to prepare this report was \$596.73

Current report

This report covers spending for the 2025-2026 academic year. Dates of terms vary by campus. The Duluth campus academic year was August 25, 2025 to August 21, 2026. The Twin Cities campus academic year was September 2, 2025 to August 14, 2026. There were no students benefitting from Educational Assistance for Veterans' Children and Spouses on the Crookston, Morris, and Rochester campuses.

Program activity and number of students served

Fewer than 10 students across the University of Minnesota system were served by Educational Assistance for Veterans' Children and Spouses.

Veterans services at the University of Minnesota are delivered at the campus level, with the University of Minnesota Twin Cities serving as the benefits administrative office for the Twin Cities and Rochester campuses. The University of Minnesota's system campuses—Duluth, Morris, and Crookston—operate independently for veterans' educational benefits. Each campus has a designated School Certifying

Official (SCO) who is responsible for certifying enrollment and managing educational benefit programs for that campus's student veteran and beneficiary population. This structure allows the system campuses to provide local support to student veterans while maintaining alignment with applicable University and federal requirements.

Enrollment and graduation data for all students awarded education benefits

Due to the low number of students impacted by this assistance (fewer than 10 systemwide), the University is unable to provide enrollment and graduation data for all students awarded education benefits.

Aggregate cost of tuition and awarded tuition waivers for students who received benefits

Total of \$58,115.05 broken down by:

Crookston campus

No students

Duluth campus

Fewer than 10 students

Sub-total: \$41,983.05

Morris campus

No students

Rochester campus

No students

Twin Cities campus

Fewer than 10 students

Sub-total: \$16,132.00
